TECHNOLOGY: A Tool for Connecting Seniors

In the context of COVID-19, we have all scrambled to find ways to connect with seniors and have been confronted with a complexity of choices. In this presentation we will discuss benefits and barriers with the use of technology for seniors, ways to expand programming given social distancing, and principles for comparing different types of technology. We will also discuss technology options to promote connectivity and engagement for seniors and devices that is most used by seniors; I-Pad, Zen Pad, Kindle, and Grand Pad.

Presenters: Edwyna Ho, MSW and Karen Fredriksen Goldsen, PhD
Healthy Gen Center, GenPRIDE Senior Center Hub.
